LUCA TOMARELLI

FULL STACK DEVELOPER

PERSONAL PROFILE

Enthusiast Full Stack JavaScript Developer, born in Rome and living in Berlin.
I consider myself as an open minded, curious person, always up for new discoveries.
I started writing codes two years ago. Since then I never stopped coding!

WORK BACKGROUND

LISART
Professional Project

Full responsive showcase website for the Salzburg based floral artist Lisa-Maria Thalmayr aka Lisart.
The front end is made with React, Node.js in duty of the back end. Features an admin panel to let her add and delete projects on her own.
I used multer and AWS S3 to upload content on the cloud, AWS SES for the contact form and Postgres as a database.
Deployed at Heroku: https://lisartearth.herokuapp.com/

COLLECT
Personal Project

Web App for restaurants, bars and clubs owners that keep tracks of customers data and delete them after 14 days.
The purpose of this app is to help flattening the Covid curve making easier for bars and restaurants to keep track of their customers and, at the same time, improving the privacy protection of the users.
Made with React, Express and Postgres.
Deployed at Heroku: https://collect-webapp.herokuapp.com/

SOCIAL IPA
Personal Project

Social Network for IPA beer passionates.
Features the most common soiclal network functionalities: login and logout / ask, accept, decline and delete friendship, leave comments on friend´s wall, upload picture and update bio.
I used React with Redux on the client, Node.js with Express for the server, Socket.io for comments and AWS S3 to upload images.
